

# #STOPLINE3

Indigenous, settler, migrant—we all agree: *a world of extraction is not the world we want!*

When we take action to support the Dakota and Anishinaabeg preserve their homelands and culture, together we open possibilities for reinventing our lives beyond colonialism and capitalism. You don't have to be part of an organization, a government, or some other structured system to want something else. We want ethical ways of relating to each other and to the earth. This is the only home we have.

***The possibilities for another world exist now.***
